Jöran Hägglund, State Secretary, Ministry of Enterprise, Energy and Communication. Read the programme and the presentations at <http://www.rdc2009.se/programme.html>

New ideas and innovations within Renewable Energy and Clean Tech – Tools for Regional Development!

This is the main topic to discuss at the Regional Development Conference 2009, July 20–21 in Östersund, Sweden.

During the conference persons with cutting edge knowledge will submit their views on where we stand, what we should aim at and, not least, views on how to create synergies between efforts for hampering climate change on the one hand and the development of renewable energy sources on the other hand for the benefit of regional growth!

Organizers:

Jämtland County
Administration

COUNTY ADMINISTRATIVE BOARD
OF VÄSTERNORRLAND

EUROPEAN UNION

County Council of
Jamtland

Landstinget
Västernorrland

COUNTY COUNCIL VÄSTERNORRLAND

Several examples from regions all over the EU, where new ideas and innovations have transferred into businesses and jobs, will be highlighted.

In addition, the conference will serve as a meeting place between small and medium sized enterprises, entrepreneurs, academia and public authorities at different levels.

An exhibition where companies are able to show their latest products or services will be open during the entire conference.

Please, consult our web site for more information and registration; www.rdc2009.se

The conference Renewable Energy and Clean Tech – Tools for Regional Development is being held in association with the Swedish EU presidency.

There will be interpretation to and from English, French, German, Spanish and Polish.

The Midsweden Region is looking forward to welcoming you to the conference!
